```

#ifndef ES_EventCheckWrapper_H
#define ES_EventCheckWrapper_H

// This is the header for the event checkers for the template project
#include "EventCheckers.h"
#include "LightService.h"
#include "HarvestButtonService.h"
#include "GameService.h"
#include "WaterService.h"

// Here you would #include the header files for any other modules that
// contained event checking functions

#endif // ES_EventCheckWrapper_H
